## BENEFITS

### FIRMING EFFECT ON THE SKIN

DMAE has tightening effect to correct the loss of skin elasticity.

### IMPROVEMENT OF SKIN ELASTICITY

Thanks to Hyaluronic Acid, skin is hydrated and smoothed. It regains its tonicity.

### PROTECTION FROM OXIDIZING AGENTS AND FREE RADICALS

Its specific formula protects against oxidizing agents and free radicals, thus imparting to the skin a younger and fresher look.

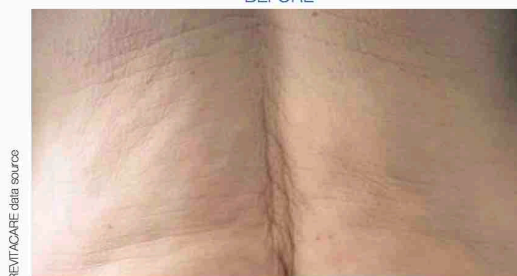

### REDUCTION OF STRETCH MARKS

DMAE tightens the loose collagen fibers, thus reducing the width of the stretch marks and decreasing their typical pigmentation.

## VISIBLE RESULTS

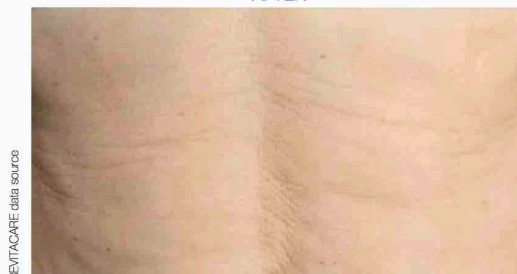

- The skin is re-tightened and firmer. Features appear more finely chiseled, their contours are visibly more distinct.
- The skin is smoother, more toned, firmer, "lifted".
- The stretch marks are considerably reduced and their pigmentation visibly decreased.
